#### Draw Line at Relief Fund.

Insistence upon its amendment to house military drafting resolution, striking out the million dollar relief appropriation for dependents of enlisted men was ordered by the senate today after a disagreement on that issue had been reported by its conference. Another effort probably will be made to induce the house to eliminate all references to relief, including even the senate proposal to exempt from service enlisted men with dependent families.

### Reinforced German Army Inflicts Further Reverses on Russians.

LONDON, June 28.—The great battle in Volhynia, where the reinforced German army has succeeded in checking the Russian advance, has resulted in further reverses for the Russians. ## LIEBKNECHT ON TRIAL BEFORE COURT MARTIAL

### German Socialist Leader Accused of Attempted Treason.

#### ARREST GREW OUT OF MAY DAY DEMONSTRATION

#### Charged With Arranging Demonstration Against War And Kaiser.

BERLIN, June 28.—The trial of Dr. Karl Liebknecht, the socialist leader, began today before a court martial which will decide whether he was guilty of attempted treason in time of war in participating in a May Day peace demonstration in Berlin.

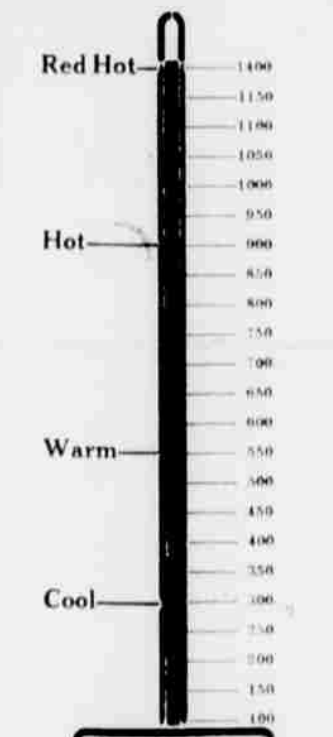

Dr. Liebknecht, whose criticisms of the government in speeches in the reichstag previously had led to his expulsion from the socialist party in that body, was arrested May 1 during the demonstration and since has been held in custody. The reichstag having on May 11 by a vote of 229 to 111 declined to order his release. He had been accused not only of taking part in, but arranging the demonstration, at which it is alleged, cries of "Down with the war" and "Down with the Kaiser" were raised.

At first it was understood Dr. Liebknecht would be tried on a charge of treason, for which the penalty is death, but the accusation was modified to attempted treason, carrying a maximum penalty of fifteen years. Parliamentary immunity was denied him.

## TRIAL JURY GOES TO DEATH PLACE

### Witness Testifies Defendant Was Drinking on Night of Killing.

The jury in the trial of Jess Knight, who is accused of killing George E. Long, went to the colliery and Sons' packing plant at 11:30 o'clock this morning to view the scene at which Long lost his life. Judge Clark granted permission to the jury to go, after Monahan, Knight's attorney, made the request. It was understood that County Attorney Embury intended to make the same request later. L. Willis, who worked under Chief Long for about six months, was the only witness who testified that Jess Knight was under the influence of liquor on the night of the killing. Willis said he saw Jess on a pool hall in Packing town about an hour or so before the shooting. He said he smelled liquor on Jess' breath, and that when he asked Jess what he had been drinking, Jess replied cider. Jess had been drinking the night before, he said. Willis was on the witness stand this morning.

#### No Intimation of It.

The two eye witnesses, Tom Nicholas and Mark Crosswell, did not intimate in their testimony that Jess had been drinking on the night of the tragedy. Nicholas was recalled by the defense this morning. Attorney Pruett said he did not know the purpose of impeaching his testimony. Nicholas vigorously denied that immediately after the shooting of the S. and S. fire station he threw his revolver away. Pruett asked Nicholas if he told two men on the day after the tragedy that he "ditched" the gun.

#### Attorneys for Knight Intimated Today.

that they would place Jess Knight, the defendant on trial, and his brother, John, on the witness stand.

#### Two Witnesses Testify.

Nicholas and Crosswell late yesterday afternoon testified substantially that Jess and John and other men were playing cards in the S. and S. station on the night of November 27. Chief Long arose and went into the toilet. John Knight followed, and in about one minute they heard Long yell "Tim!" Nicholas ran to the door. Long and John Knight came through the door. John had hold of Long's collar. John held a knife. Long's face was badly cut. Long reached up on a shelf and got a fire nozzle and held it before him as if to push John away from him. At that moment Jess Knight asked Long away and shot him above the left ear. Long fell against the wall, dead, and the Knight brothers fled.

## VILLA CHIEFS GATHER FORCES NEAR JUAREZ

### Border Towns Fear Frequent Raids in Case of Hostilities.

#### MEXICANS SUFFERING FROM LACK OF FOOD

#### Shortage Becoming Acute in Interior, Recent Arrivals Assert.

EL PASO, June 28.—Fresh cause for apprehension was found along the border in news today of the gathering of strong forces of former Villa soldiers under notorious chieftains in the vicinity of Juarez and the close surveillance by the civil and military authorities of former adherents who are now refugees in El Paso.

Villa Chieftains Gather.  
General Jose Flores, commanding 800 infantrymen, is reported in Juarez after making peace with the de facto government. General Manuel Banda, once a Villa subordinate, is known to be across the Rio Grande, and Manuel Medina, and Jose Ysabel, Robles, also have taken advantage of the amnesty granted by Carranza. Still another former Villa leader, Colonel Maximino Castillo, has joined General Gonzales in Juarez. Castillo, who has been blamed for the dynamiting of the subway tunnel in February, 1914, in which twenty-five Americans and fifty Mexicans lost their lives, recently returned to Mexico by way of Vera Cruz from Cuba where he went after being released from custody.

Bandit Activities Feared.  
The bandit raid near Hachita which resulted in the murder of an American named Parker and his bride, still was a fruitful subject of speculation today in connection with the presence of Villistas in Juarez and the apparent lack of protection afforded the border from bandit raids. Their probable activities in the event of hostilities against gave rise to numerous alarmist stories.

Food Shortage Serious.  
Although the embargo of munitions still is enforced recently at points of entry, that regarding food is not. That the food shortage is becoming more acute in the interior of Mexico was declared by arrivals from the south who told of bread lines in Chihuahua City, Durango and Torreón and brought pictures to substantiate their statements.

Dynamite Squads Formed.  
Mexican refugees who reached the border today from the mining districts of southern Chihuahua brought stories of the organization of dynamite squads in General Trevino's army. They said it is planned that should it become apparent in the event of war that the de facto troops could not hold the railroads to destroy them and the detachments now stationed along the Mexican Central and the Mexico Northwestern will be concentrated at Chihuahua City. Bombs and hand grenades, it was said, were being made.
